

800 SERIES

VINYL WINDOW

The 800 Series vinyl window has been engineered to be a leader among comparable product. The 3/4" glass, 3-1/4" jamb, sloped sill and integral J-channel are all design characteristics that enhance the performance of the window. The result is a window solution that can meet most of your needs with a DP rating up to DP60.

Argon and Low-E options available. Additionally, the entire frame utilizes an aluminum reinforcement and extended nail fin to enhance the overall durability of the unit.

Performance is a critical element of any window design. However, so are the aesthetic elements. The 800 Series vinyl window incorporates a beautiful profiled exterior to enhance the curb appeal and to add value. 800 Series windows are also available in optional sandstone.

To back our claims, the 800 Series window is supported with a 10-year warranty.
